CARFILLOOK: NUTRITIONAL SUPPLEMENT FOR CATS AND DOGS

- Reinforces the immune system
- Reduces the risk of sand fly bites, tics, mosquitoes and fleas
- Stimulates the blood circulation and urine excretion
- Healthy skin, shiny coat
- Natural energy supplement

Reinforces the immune system

Carfillook is made of carefully selected oils and garlic extracts with a high percentage of essential oils. These essential oils stimulate the activity of certain kinds of white corpuscles, which play an important role in the immune system. Carfillook also stimulates the production of antibodies and this way it slows down, as a natural antibiotic, the development of pathogenic germs and mycoses.

Reduces the risk of sand fly bites, tics, mosquitoes and fleas

Major scientific research projects have proven the efficacy of its garlic-based active substance in significantly reducing the risk of sand fly bites and the possible transmission of Leishmaniosis, in addition to its natural repellent action against tics, mosquitoes and fleas.

Stimulates the blood circulation and urine excretion

The stimulating effect lowers the blood pressure and counters fluid accumulation in the body.

Healthy skin, shiny coat

Daily use of the product has proved effective against skin inflammations, helping to protect the skin against damage and improve the texture, gloss and colour of the coat. Its use has also been tested and documented in association with specific treatments with excellent results in veterinary medicine.

Natural energy supplement

Olio Vivo ACTIVE is an energy supplement recommended for healthy growth of the muscle and bone structure, useful in cases of stress, for competition and show animals, during pregnancy and the feeding of offspring.

Instructions for use

Add daily a dose of garlic oil to the food of your cat or dog, according to the weight table underneath. To optimize the result, it's recommended to use the product minimum 10 days, but for a resistance and a possible antibiotic effect, use it for 5 to 6 weeks.

To obtain the best result possible we recommend to continue giving CARFILLOOK during the season of tics, mosquitoes and fleas.

To preserve the antibiotic effect, you are allowed to insert a pause of 2 weeks between 2 cures.

Body weight	Numbers of pushing the pump of the bottle 250 ml / 500 ml / 1000 ml
To 6 kg	1/2 - 1
From 6 to 12 kg	1 - 2
From 12 to 25 kg	3 - 4
Over 25 kg	5 - 6

Store in a cool, dry and dark space.
